It is evident that the Custom-House rowd intend to cover up their tracks to prevent any inquiry into their methods, if it is in their power to do so. If obstructions and nulsances were to spring up around the carriage-drive or the bridle-path in Central Park, or to threaten the progressing Gilroy speedway for fast horses, how quickly the Mayor would interfere how strongly and effectively he would enter his protest against such

Why is he dumb or apologetic wher roachments are made on the rights and privileges of the downtown working people who use Battery Park?

THE DISCONFET DOLLAR

Silver tumbled down yesterday from 22, the opening price in the morning, to 18 1-2, the decline only being stopped by the close of the market. The loss of the Government by the decline in a singie day, under the Republican policy established by Senator Sherman's law was about thirty million dollars.

Whatever loss the Government suffers falls on the people. Out of their pocksome shape or other, must come these thirty millions and the enormous amount previously lost through the enforced silver purchases. And who is benefited by such pur shases? DID COWBOY BERRY FAIRLY WIN? Four Men Accused of Taking Care

at Night with Their Horses. CHICAGO, June 29.-There is trouble ahead for Berry, the alleged winner of the cowboy race. George Jones and Rattlesnake Pete, two of the contestants who arrived yesterday morning, claim that Berry, and also Albright Gillespie and Smith, the first four men in, rode in the cars at night and shipped heir horses.

Jones claims that he and Rattlesnake Jones claims that he and naturalized Pete are the only men who rode a fair race. His statement is corroborated by the correspondent of a local paper, who came over the same road on a bi-
